

Dear Parents and Guardians,

Regular use of rapid antigen self-tests in school has become established as the key measure for enabling the speedy identification of cases of Covid-19 in schools, so that further infections can be avoided and wherever possible the schools kept open.

The **Federal Ministry of Education, Science and Research** has appointed the Austrian Society of Paediatrics and Adolescent Medicine to conduct a scientific study of the implementation and acceptance of the rapid antigen tests. To this end, a survey of parents has been developed, which is being conducted by the Austrian Society of Paediatrics and Adolescent Medicine in conjunction with prospect Unternehmensberatung.

Please take a moment (**no more than 10 minutes**) to fill in this online survey (please complete by 1 June 2021). It can be done jointly with your child/children if you wish.

www.coronaschultest.at/418061

Volksschule (Lambacherstraße 4, Gunskirchen)

This survey is voluntary. The data will be recorded **anonymously** and only evaluated in their totality.

Should you have any questions concerning this survey, please contact:

coronaschultest@prospectgmbh.at or

[+43 660 570 30 18](tel:+436605703018) (hotline is available Mon-Fri from 9 am to 12 noon).

Thank you very much for your cooperation; you are making an important contribution to learning more about the implementation and effect of the protective measures being taken to contain the pandemic.

Austrian Society of Paediatrics and Adolescent Medicine

This survey is being conducted in collaboration with prospect Unternehmensberatung. The study is being conducted on behalf of the Federal Ministry of Education, Science and Research.
